Dear Friend,

The journey of becoming a true entrepreneur, and establishing a life of true independence requires many steps.

True change requires overcoming inertia. The self crippling stagnation that keeps many of us from accomplishing the goals that we truly seek. Change is naturally frightening, as is any aspect of the unknown. However it is this very territory of the unknown that is the “entrepreneur’s playground,” where innovation and dedication meet, where the true separation from the masses is made.

Thankfully for you and the other members of our community, you will not embark on this journey alone. Take refuge in the fact that you have an entire community of like-minded people alongside you. Those who have taken this very same step before, felt just how you may feel, wanted something better as earnestly as you do.

Like them, you will find out how to write your OWN paycheck for life by leveraging the explosive power of the internet and its 1.5 BILLION users.

PLUS, learn how CarbonCopyPRO...

- Can help you potentially fire your boss in the next 90-days...
- Has already helped countless change their lives...
- Can give you a \$1000/month luxury car allowance...

We look forward to YOUR success as an Internet based entrepreneur. We sincerely do. Come, let’s do this together,

**“FROM A DYING OFFLINE BUSINESS
TO \$25,000 A MONTH ONLINE IN
90 DAYS WITH PRO. THANK YOU
FOR SAVING OUR HOUSEHOLD!”**

“Reeling from a failing traditional business and in over \$60,000 of debt, my wife and I decided to jump online and get started with PRO.

With the help and support of this community, we were able to reach \$25,000 a month online by our third month! We have since paid off our debt, can now go where we want, when we want, and do pretty much what we want.

Thank you for saving our household and providing us with the opportunity to create a brand new lifestyle for our family.”

[From Selling Mufflers To Self-Made Multi-Millionaire]

It was the winter of 2004; I was 25 years old and close to burnout. I was working 50-60 hours a week at Midas selling mufflers. Not exactly the most glamorous job in the world.

My weekends were spent dreading Monday. I felt stuck, and I was doing this all for a measly \$50,000 a year!

I had no savings or disposable income, and I was maxed out on all of my credit cards. I was so sick of being broke and unable to afford the finer things in life that it made me resent anyone that actually did have any money.

I was worried about having enough money to pay my rent, and even though I worked at Midas, could barely afford a muffler for my old beat up '94 VW with close to 200,000 miles on it.

A high school dropout, I kept hitting the same glass ceiling, yet I had neither the time or money to afford furthering my education. I was resigned and cynical, thinking this was all I had to look forward to before retiring on social security.

You could say that I was in a similar situation to the average American; spending more than I was making and on this monster treadmill, just trying to survive. It sucked. It was actually quite a pathetic existence.

**“OVER \$11,000 IN A SINGLE MONTH
USING THE PRO MARKETING SYSTEM
-- ALL WHILE BATTLING BREAST CANCER
AND WORKING 60+ HOURS A WEEK!”**

“We thought it would be impossible to grow our new marketing business while working 60+ hours a week in our health care jobs, AND with Rosemary battling breast cancer.

We were ready to give up our dream of financial and time freedom. But then we found CarbonCopyPRO. Using the training and marketing system, we’ve been able to leverage our limited time, brand ourselves online, and make 20x more money than we ever made in MLM.”

Now, we’re making plans to get out of our full time jobs, and we owe it all to PRO. Thanks, guys!!!”

I had spent close to three years in the home-based business industry trying to make extra money so I could quit my job. Affiliate marketing, referral marketing, direct marketing, network marketing, MLM, and pyramids schemes... I tried every money game and income opportunity out there.

All I had to show for it were my two maxed out credit cards, and a whole lot of wasted time.

No one understands the rat race better than I do. I spent the last three years of my life barely knowing how I was going to come up with my next rent check, or make ends meet.

Over those years of working my job and struggling to make money online, I learned some of the most valuable lessons of all: **WHAT DOESN'T WORK!**

I learned how “not” to run a business, and the key differences between the countless scams and legit opportunities.

You could say that these lessons, even though costly and painful, were well worth their toll. It was like graduating from the school of hard knocks, with a degree in guerilla marketing.

Then one day when I was at work, hating my job and pissed off at the world, I stumbled across a web site. It looked a lot like the others that you see online... lots of hype, tons of “you can do it too” rhetoric, and huge income claims.

This web site talked about this guy who was making \$1,000 bucks a day from home in some online marketing opportunity. I filled out a form on his web site and waited 3 days for him to call me back. When he finally called me back:

“WE EARNED \$81,000 IN A SINGLE MONTH... WITHOUT PITCHING FRIENDS AND FAMILY, OR HOSTING HOME PARTIES LIKE WE WERE ACCUSTOMED TO!”

“We were no strangers to Network Marketing when we first ran across CarbonCopyPRO. All of the “Old School” up-line strategies companies had taught us had dried up; how to make our list, pitch family & friends, cold calling thousands of leads per month.

We even did over 40 home parties for our team last year, while Sophia was pregnant with our 2nd child. Even with that large of an organization, we were not making the type of income that we had envisioned...earning over \$80,000 our six month!

We are living proof that you can teach a couple of old dogs, some new tricks!”

[I Told Him I Wanted To Make \$50,000 Dollars Per Month. He Said - “Sure, I Can Show You Exactly How To Do That”]

Pssst! I laughed. My mind was saying “Yeah right.” I didn’t believe him for a second, but I got started and gave him my money anyway. (What a sucker!)

I quickly realized that, yet again I was on my own. I was going to have to figure it all out myself or fail. Once again, I felt like I was being thrown to the wolves... I was embarrassed and pissed off.

This time, however, I had spent over \$2,000 to get started, and it was not my money. I had borrowed it and had to pay it back in full, so failure was NOT an option.

I channeled my anger, confusion, and frustration. I thought about the years of struggling and what my life would be like if I didn’t make this happen. I decided to suck it up and figure it out.

I gave it everything I had, and was able to put my 3 years of trial-and-error experience to use. I finally got something to stick. Slowly but surely, I started to build some momentum and within a few weeks I made back my money.

Then, within 90 days of figuring out a few more marketing secrets, I started making some real money. This was my first real taste of success and let me tell you, IT WAS SWEET! I was actually making more at home part time than I was bringing home from my job.

So, I went into work one day and fired my boss. WOW! Talk about an empowering feeling. I felt like a bat out of hell! I remember driving home that day with the most liberated feeling imaginable. It felt like a long awaited vacation had finally come, but this time it was permanent!

**I was psychologically unemployable at this point and
NOTHING was going to stop me.**

I was on a mission to prove to all of my friends and family members that I was NOT the crazy one!

Within the following 6 months, I was making \$20k-\$30k a month. I was able to pay off and get rid of my credit cards along with a lot of other bills that had piled up over the years.

I soon bought my first house, putting 20% down in cash, and then spent close to \$100,000 putting in a new kitchen and backyard with Japanese gardens and goldfish ponds. You should have seen the heads beginning to turn!

I gave my old VW to a family member and bought two brand new cars, one of them was a custom built BMW. I was on FIRE!

[How I Made \$103,715 My 10th Month]

Yes, you read it right. My first \$100,000 month came in my 10th month, and I made close to \$500,000 in commissions my first year! I changed my focus to helping others create what I had created, and the rest is history. I'm not telling you my rags to riches story to brag or blow my horn at all... I came from very humble roots and like many people, I struggled for years.

I was not born with a silver spoon in my mouth, and almost everything I know is self-taught. I learned the hard way, on my own, and for the most part without any help or support from my supposed mentors.

I want you to understand why I decided to build my marketing education platform and eventually CarbonCopyPRO:

What you give is what you get...

I wanted a \$100,000 a month residual income and the only way I knew how to get that was to help others get the success that THEY want.

Back in 2004, I met this guy with a funky Australian accent named Alan. He was a brilliant marketer and we instantly hit it off, becoming great friends.

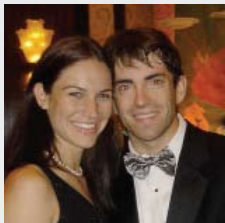

We worked on a good deal of marketing stuff together and we quickly mastered Google along with many other marketing mediums.

We both started making a lot of money, but we never forgot about our members. In fact, everything that we figured out, we posted on our web site for everyone to use. Years of trial and error were eliminated for our members and we in turn were able to build a very large group of marketers quickly.

Then one day, one of my members forwarded to me a link to another group of marketers who had stolen all of our training modules, tips, and tricks. They had plagiarized all of our materials, re-branding them as their own. I was furious! How could these guys take credit for all of our experience and hard work?

I made a quick phone call to my partner “down-under” and within a few hours he had figured out how to password protect our web site.

This put an end to the plagiarism and was the genesis of our marketing education platform. It wasn't called CarbonCopyPRO back then. In fact, we didn't even have a name for it.

"I'M SPEECHLESS... I WAS \$253,000 IN DEBT AFTER LOSING MY FRANCHISE, AND LESS THAN 6 MONTHS LATER, I'M EARNING OVER \$40,000 A MONTH USING PRO!"

"In October 2008 the sky was falling for Laura and I. In the year prior I had bought into a franchise restaurant concept in Houston, TX. Saddled with debt, I was trying to make a go of the wrong restaurant idea, in the wrong city, in a crumbling economy.

I was dealing with everything bad you could imagine about a brick-and-mortar business Utilities, rent, exorbitant insurance, flaky employees, rising costs, whiny customers, etc. It was truly a franchise horror story that ended with a closed store, a quarter million dollars in personal debt, and 4 1/2 years left on a 5 year lease.

That was 7 months ago (October 2008). Now Laura and I are professional internet entrepreneurs who make more in a month than I used to make in a year. What a turnaround! What a gift!"

We started out with a few dozen members using our system and by 2006, we had over 500 members paying us to use our marketing education platform to help eliminate their learning curves.

We had people getting started with little or no marketing experience, who were able to quickly duplicate our techniques. Somewhere along the way I coined the name “Carbon Copy Marketing.”

[People Loved Our Stuff Because It Flat-Out WORKED!]

Alan was spending all of his time programming, and I was still making over 7-figures marketing full time. We continued the tradition of allowing all of our members to copy everything that I created and found to be effective, and we continued to grow.

I spent my own money split-testing and tweaking the system so that our new members had the best possible training and resources. Everyone got to benefit from our success. This in turn generated more residual income for me, and everyone was winning!

Then came the summer of 2007. A friend of mine by the name of Aaron Parkinson, whom I had met almost four years earlier at a marketing event, called me. He had also chiseled a place for himself in the “who’s-who” of the Internet marketing world and this was our time.

We bounced some ideas back and forth and decided to collaborate on some new concepts.

After hundreds of hours of programming and hard work, CarbonCopyPRO was born three months later.

“WITHIN OUR FIRST FEW MONTHS, WE WERE EXPERIENCING MULTIPLE 5-FIGURES!”

Before finding PRO, we toiled building our business over ten long years and before selling our business to a large media company, and deciding to make the leap into a well-known MLM.

Excited at the thought of growing a lucrative business from home, the autonomy, escaping all the trappings of our old business. Unfortunately, we found that our experience was similar to that of so many people in traditional MLM and network marketing. ie, disappointment.

Not soon after, we found PRO. We were so impressed by what we saw, we joined straight away. Within our first few months we were experiencing multiple 5-figure months.

We can say we sincerely feel incredibly privileged to be part of this community. The ethics, integrity and commitment to education personified by these people inspire us everyday.”

The only way to describe the success of PRO is “staggering!”

[People Who Had Never Made A Dollar Online Were Suddenly Making \$20,000, \$30,000, And Even \$50,000 A Month!]

The primary company that we were marketing for, like us, had NO IDEA that our new system was going to be so successful. Their sales were up almost 500% within 30-60 days. We were on a vertical growth curve.

Fast forward to now...

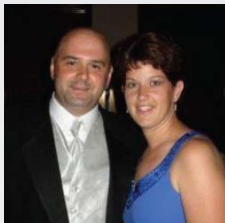

- Thousands of Entrepreneurs Created Worldwide
- Over 170 Countries
- Over 50 Languages

Pretty much overnight we defined ourselves as the industry leader.

Our ONLY intention was to be able to look into the eyes of our new members and tell them “yes, you can do it too...” and then be able to provide them with all of the tools and training they would ever need.

[Are You Ready For A Different Result?]

At this point you are at a crossroads. Do you continue down the familiar path that you came from, or do you make a decision to do something unlike anything you have ever done?

“OVER \$10,000 A MONTH!... AFTER MAKING PEANUTS IN LAW ENFORCEMENT”

From twelve years in Law Enforcement making peanuts... to making over \$30K in just three months... Talk about a whole new world. Especially considering the fact that I had ZERO prior marketing experience.

The key word here is “SYSTEM!” I could not have done this on my own. Thank you PRO for the ongoing training and support. If I can do this, anyone with desire can do the same!

This is about YOU changing YOUR financial situation and YOUR life. If you are serious about changing your life and leaving a legacy, we are ready and able to assist you on that journey!

I think differently than the masses. It's really that cut and dry. If you are planning to earn a million dollars, you are ALSO going to have to learn how to think very differently as well.

To reach the goal of becoming a wealthy and successful entrepreneur, you MUST understand the following:

You will never out perform your self-image (your financial thermostat) if you:

- Hang out with all the wrong people who are also stuck working “hard” for their money.
- Are more committed to being comfortable, than being successful.
- Lack the vision, focus, follow-through, and motivation required to break your old form.
- Know NOTHING about leveraging yourself and your time.
- Have an entitlement and/or lottery based mentality like the masses.
- Think that a million dollars is a lot of money :)
- Think that working a job and accepting a paycheck is acceptable for the rest of your life.
- Follow the advice and opinions of your broke friends and family.

At this stage, many people ask, “What does this mean? How do I know where my financial thermostat is set right now?” Your first step is to look at your current income!

***“WE WERE FACING BANKRUPTCY
AND FORECLOSURE, AND MONTHS
LATER WE’RE EARNING UP TO
\$15,000 A WEEK USING PRO!”***

“In the middle of 2007, the mortgage business began to crumble. Our backs were up against the wall, and we were facing bankruptcy and foreclosure. Anthony had just gotten married, and was expecting his first newborn. We knew something had to give. Something had to change.

During this time of uncertainty, Anthony and I decided to close down the mortgage business, hold on to what was left of our assets, and begin a mission to recreate our financial futures in the home based business industry. As we were searching for the answer online, we ran into PRO and the rest is history.

We are 100% committed and dedicated to being leaders in this community. After plugging into the system, and learning the skills needed to grow our business effectively, we are right on track meeting our goals. We are anxious, and looking forward to giving back to those on the same path of success. We would like to personally extend our gratitude to the PRO community and respective leaders for the knowledge, support, and the system provided that enables us to reach this level of success.”

[Where Is YOUR Financial Thermostat Set?]

You see, you might have been conned into believing that this is all you are worth! Most people are just accustomed to believing that they should be content with their lot in life, and don't understand the greater context of the fact that we each control our "lot in life."

For many to think outside the box is uncomfortable. When one starts to think outside the box, it makes neighbors, family, and friends uncomfortable too. Your family and friends are accustomed to what they believe is possible in their reality. Fortunately for us, we create and participate actively in our own reality... ultimately guiding the outcome with our decisions.

They want you to be safe and they feel "comfortable is safe." Having a job is traditionally accepted as secure and safe, and that most entrepreneurs go broke in a few years. You can see their logic... "Don't venture outside your own backyard. It's dangerous out there, and people crash and burn."

Set your financial thermostat where it is uncomfortable, and keep it there until it is comfortable. At that point, move it to a new level of discomfort. As you proceed, you will witness your wealth and success grow to new levels, and your belief and confidence will keep up the pace.

Look at the compensation that you currently receive and then ask yourself:
"What do I offer society that is worth a million dollars?"

Did you realize that over 97% of the planet does not offer a legitimate value to society worthy of a million dollars? They are consumers, contributing little to society.

SECRET:

STOP LISTENING TO THE ADVICE OF YOUR BROKE FRIENDS AND FAMILY!

[The Best Way To Help The Poor, Is NOT Being One Of Them. What Do You Have To Offer Your Local Community?]

Ouch! That's a strong statement but it is worth saying.

Here is the evidence: People that offer real value are being compensated proportionately for that value. The point is this: If you are wanting, hoping, or wishing for a million dollar lifestyle, figure out how you are going to provide a commensurate amount of value.

These actions will guide you to the reality for which you are searching.

If you cannot clearly answer the question, you deserve to find a way to contribute.

Never let yourself accept \$50,000 per year if you are worth \$50,000 per month. If you believe you are really worth \$50,000 per month, then \$35,000 per month is a joke, so don't accept it.

Believe in yourself and the ability to create the situation that allows you to offer society everything you have to offer... you will be rewarded more than you realize and in more ways than just cash.

As you embark on your mission of personal and professional development, you will find that you can shorten your learning curve by seeking training and coaching from successful experts.

[Time To Let Go Of That DEAD-END Career?]

Are you willing to do WHAT IT TAKES to increase your value to society to the point where you are finally going to be earning your “dream income?”

On the next page is a copy of my resignation letter that I gave to my boss back on May 20, 2004. Feel free to copy it! Seriously!

What must be recognized is the difference between entrepreneurs, and the “posers” who are perpetually hoping to become one, are three simple things: guts, follow-through, and brute determination. Sounds daunting, but it’s really not. To expound on this briefly let me take you back a couple of years:

I had the privilege of speaking in front of an enthusiastic crowd of about 500 people in San Diego a couple years ago. I started out by asking, by show of hands, who wanted to quit their job in the next 90-days if I could guarantee this for them.

I would say, conservatively, that no less than 75% of the room immediately had a hand in the air. Next, I had everyone pull out their notebooks and write their resignation letter, in 100 words or less, date it for 90 days from then, and fold it in three. Finally, I instructed them to write their bosses name and address on the back of the sheet.

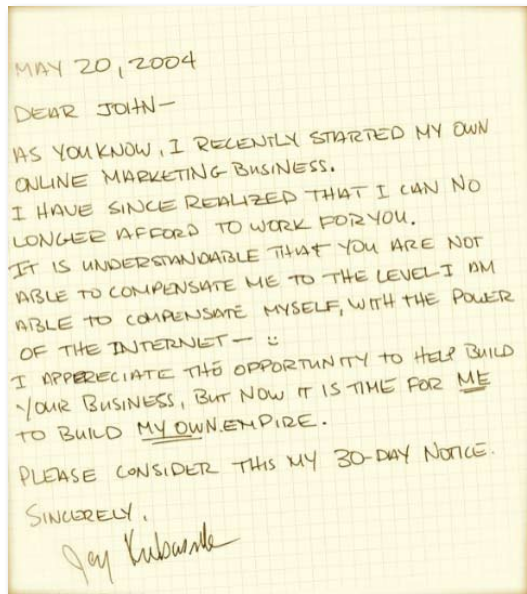

I had 100% participation up till this point. The exercise was easy to do, and there was clearly nothing to lose! The next thing I asked however, sucked the energy out of the room like a vacuum.

I asked everyone to pass their letters to the center isle where they could be collected. I then followed it by saying I would personally incur the cost of mailing all of the letters to their bosses in 90-days.

Once the reality of the proposal set in, and people realized they would be out of a job in 90 days whether they followed-through with their part or not, the room turned into a very, and I mean very, uncomfortable space. I was no longer the inspiring speaker they had come to enjoy. I was more like the devil incarnate, in a suit of course.

People love to be inspired, made to feel warm, fuzzy and tingly inside. Admittedly, I do too! But not unlike spilling blue pen on dark jeans, at the end of it all, no one will notice.

[My Resignation Letter From 2004]

MAY 20, 2004
DEAR JOHN—
AS YOU KNOW, I RECENTLY STARTED MY OWN
ONLINE MARKETING BUSINESS.
I HAVE SINCE REALIZED THAT I CAN NO
LONGER AFFORD TO WORK FOR YOU.
IT IS UNDERSTANDABLE THAT YOU ARE NOT
ABLE TO COMPENSATE ME TO THE LEVEL I AM
ABLE TO COMPENSATE MYSELF, WITH THE POWER
OF THE INTERNET — ☺
I APPRECIATE THE OPPORTUNITY TO HELP BUILD
YOUR BUSINESS, BUT NOW IT IS TIME FOR ME
TO BUILD MY OWN EMPIRE.
PLEASE CONSIDER THIS MY 30-DAY NOTICE.
SINCERELY,
Jay Kubanski

For most people, there is invariably a lot of dreaming, visualizing, hoping and waiting. For far fewer, there is decisive action, follow-through and results. True entrepreneurs simply have the guts to persist when commonly people begin to fold it up, and remain stagnant.

I challenge those of you reading this now to write **YOUR** resignation letter. Date it 90 days from today, address it, affix the stamp, and then place it somewhere it will be seen many times a day.

"I MADE \$23,560 WHILE VISITING MY SISTER & FAMILY IN NORWAY!"

"Thank you very much to all of you in the leadership: I couldn't have gotten to where I am today without all the incredible tools, training and support that you continue to provide us with.

At 22 I moved to California to study acting and to fulfill my life-long dream of working in Hollywood. Although I loved life on set and was able to make a decent living for myself in film and TV, I always felt like there was something else I was supposed to do, something more. Finally, a decade later and after some misadventures in traditional MLM, I stumbled upon PRO.

Now I live life on MY terms and travel around the world. With PRO I began an entirely new chapter in my life!"

You taking decisive action, establishing a time frame for your commitment, and requiring yourself to be reminded of this very commitment every day are markings of the successful. However, as you already know, the true test will be if you **ACTUALLY** send the letter. The true test will be if you actually **BELIEVE** in yourself.

Successful people of every medium, whether that be business, athletics, or art, **EXPECT** the results they desire. They plan for it, articulating to themselves that each action is part of the process of attaining that very goal. What if the things that you have been conditioned to believe are “too good to be true” could actually happen? Seemingly crazy, unrealistic things. Those that you dare not even say out loud, because you are afraid people might laugh.

Pick an unrealistic dream you thought to be unattainable. A goal that would be incredibly passionate about, **IF** you believed it could actually happen. Write it down, and then **EXPECT IT TO HAPPEN**. Take consistent action daily, do not worry about the scale of each action, and watch what happens.

With that you are yet another step closer to earning your true **Worth**.

Pick an unrealistic dream that could never happen, but yet it is something that you could be passionate about **IF** you believed it could happen. Write it down, and then **EXPECT IT TO HAPPEN**. Then start taking consistent action daily and watch what happens. (It’s the “taking action” part where most people come up short.) Don’t believe me? Ask Walt Disney, Bill Gates, Elvis Presley, or any astronaut.

[How To Use The Internet To Write Your Own Paycheck Starting Today.]

I'm not going to spend a lot of time telling you how powerful the Internet is. By now, I'm sure you already know that the Internet has BILLIONS of users, and is literally touching everyone's lives.

It simply makes sense. If you are not using the Internet for your business now, you will be left behind.

What I especially love about creating an income on the Internet is that you can:

- Setup a successful business with little or no experience.
- Profit from sales while you are out enjoying life or taking a nap.
- Automate most of your sales and delivery operations.
- Quickly harness the power of selling proven profitable products.
- Keep track of your income from any Internet cafe around the world.
- Partner with and learn from successful entrepreneurs with an almost instant camaraderie.

You can become a true entrepreneur without having to raise hundreds of thousands of dollars to start a brick and mortar business! But you need to be extremely selective with what you market and what system you use when starting your Internet business. One of the first Internet success books that I read told me there was big money to be made selling all sorts of things through affiliate programs like Commission Junction (www.cj.com). So, I signed up, got my affiliate links, created my own web site, set up some advertising, and set my first "Internet cash machine" on autopilot.

The trouble was the commissions were tiny! Check out the following breakdown and see how much stuff you have to sell to make a commission of only \$66.14!

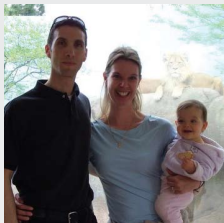

- \$8 for a \$214 plane ticket sale to www.travelocity.com
- \$5.64 for a \$282.04 car rental sale to www.travelocity.com
- \$15.48 for a \$129 sale to www.myweddingfavors.com
- \$34.26 for a \$1317 sale to www.dell.com

[\$66.14, what a joke!]

I realized I was going nowhere fast. I learned quickly that I needed to sell things with a higher percentage payout if I ever hoped to replace my income.

I next tried Click Bank (www.clickbank.com). It's a wonderfully simple site offering more aggressive commissions because they only sell electronic products. I chose to sell satellite TV software offering a 50% affiliate commission. I figured I couldn't go wrong. Now each sale that I generate for them (before figuring in any advertising costs) earns me \$17.66. You see, the trouble is that Click Bank has a limit of \$100 on any product that they offer, so even though a 50% commission of something sounds like a lot, 50% of not much is still diddly-squat.

I wanted to make hundreds of thousands of dollars, but without having to find tens of thousands of customers. So I started looking ways to earn high commissions on higher ticket items.

"WE JUMPED IN WITH BOTH FEET AND MADE OVER \$40,000 IN OUR FIRST 90 DAYS!"

"I spent most of my years in Pharmaceuticals, and my wife in the hotel industry. After several failed offline business ventures, and unfortunately tens of thousands of dollars later, we realized there had to be a better way to break free from the "Golden Handcuffs" of the corporate world.

We eventually turned to the Internet and found PRO.

We jumped in with both feet and hit the ground running, and had twenty-three leads our first day along with our first application! Now, over one hundred plus applications later, and dozens of new members on our team we are humbled by the excellence of this community and the power of this system.

After earning over \$7,000 our first month, and over \$40,000 our first 90 days... We see our steps being ordered for great things to come and bold dreams to be accomplished in the months and years ahead!"

DISCLAIMER: CarbonCopyPRO (PRO) is an education company and marketing platform, not an income opportunity. Some of our customers are also affiliates and earn commissions by referring other people to our products and services. The average commissions earned by a PRO Affiliate Marketer is approximately \$200 per month (Results for 12 months between Oct 2008 and Oct 2009). Many of our top marketers (some of which have provided written and video testimonials) earn the majority of their income by selling other company's products and services to customers that they found using the strategies we teach. We are unable to disclose incomes for members selling non-PRO products, however, we do have notarized affidavits on hand for every income claim made in our promotional materials.

What I discovered very quickly was that people don't usually click on a link, visit your web site, and just buy a high-ticket item just like that.

I found that in order to earn commissions of \$1,000 and more, I needed to build a whole step-by-step sales process and have my own call center to assist me closing the sales.

[**Raking In The Cash.**]

I quickly realized if I wanted to hit my single goal of \$100,000 a month in residual income, I was going to have to teach others my secrets as well.

By allowing others to “carbon copy” me, I would increase my value to them (remember the part about increasing your value to society earlier..?) They would ALSO be able to have the kind of success that I was having. This in turn would generate huge residual income commissions for me. As they say, “the proof is in the pudding.” My residual income was now WELL over \$100,000 a month and growing rapidly! I continued to get paid over and over again for work that I had already done! I get paid over and over and over from the efforts of my marketers who are enjoying huge success with my marketing education platform!

Imagine how YOUR life would be different if the FedEx truck pulled up to your house around the middle of every month and the driver handed you a check for over \$100,000? What would you do with that kind of money on a monthly basis?

- Couple new BMWs?
- New house?
- New zip code?
- Jewelry for you spouse?
- Vacations with your kids?

"I NEVER IMAGINED MULTIPLE 5-FIGURE MONTHS – ESPECIALLY, IN SUCH A SHORT AMOUNT OF TIME! ...AND ALL THE WAY FROM SCANDINAVIA WITH ZERO EXPERIENCE!"

I was forced to begin working within this industry when I almost went bankrupt. It was February of this year. I had a construction company that was involved in building 8 apartments for 2 companies. At the peak of the job, much like the rest of the world, we were hit by the financial crisis. Survival was unlikely. It was a huge blow, as now I had to find another source of income to protect myself, but more importantly my family...

At this moment in time, my back was against the wall, and I was forced to think outside of the box. This was when I found PRO. The discovery of PRO was not something I had every imagined for myself, as I had ZERO experience within the industry. I certainly could never have imagined making multiple 5-figures monthly in such a short time!

My skills were definitely lacking, as all I could really do with a computer was to read the news, and write some mail. Simply stated, I was far from an ideal candidate for this type of business model. Yet with a little hard work, focus, and following the PRO's, I was able to succeed!"

[How Do You Change Your Situation Starting Now?]

Education is not enough. There are thousands of remarkably well-educated, unemployed people.

You cannot rely on your tenure at your company, or the security of a pension.

Big companies downsize everyday, and most don't provide pensions anymore (or worse, your life savings were lost in the market).

The government will run out of bailout money soon, so don't bother depending on them.

An MBA is what your father required. (Today it can barely get you an interview.) There are close to 10 million people looking for work in North America alone!

[Three Things You Will Learn With CarbonCopyPRO:]

1. You are going to learn how to think and act like a successful entrepreneur.
2. You are going to learn how to create YOU Inc.
3. You are going to learn how to MASTER the concept of leveraging the power of the Internet.

Are you ready to have new skills that can move you forward? Are you ready to work smarter than you have ever worked? Are you ready to stop waiting around for someone to tell you what to do?

***“QUADRUPLED MY INCOME! \$99,000
OUR SECOND MONTH USING PRO...
WE MAKE MORE IN A MONTH
THAN MOST DO IN A YEAR!!”***

We just cannot say enough about PRO! It has simply changed our lives! We are making more in a month than most people make in a year!

In our 10 years of sales & marketing experience we have never found a system with this kind of power, leverage & automation! It has enabled an awesome quality of life for us, that we would have never been possible with a regular trading time for money 9-5 job!

Thanks so much guys for creating PRO!

[It's Time For "YOU Inc."]

It is time to become self-reliant.

It is time to become *your own* brand.

It is time you create *your own* story.

Until recently, to have a breakthrough business idea or concept, you had to keep testing and spending money, until you either made a profit, or went bankrupt. It was like playing Russian roulette.

With the advent of the Internet, you instantly are able to place your product, your service, or your business in front of millions of people, around the world, with little more than just the push of a button. Making it the most powerful platform for information in the world.

Now, more than ever, you can harness this power with tools like: social networks, search engines, texting, and mobile web devices.

You can quickly launch products, test ads, and focus on different groups with the agility of a fox. The world is wide open. Consumers are waiting for the next great product. People are sharing information like wildfire.

It's called "going viral." Success stories are being made overnight. The iPhone didn't exist before 2007, now there are over 100,000 applications available for it.

People connect and interact with Twitter and Facebook. Both are now household names, in 2007, they barely existed.

This is the information age and it's time to realize that there are lots of opportunities for everyone. In fact as technology increases, more opportunities are created at the same time.

[The Ability To Leverage The Internet Is Becoming The World's Most Valuable Commodity.]

Successful people have all embraced the new economic age. They understand that it's like another gold rush. Except this time the playing field has been exponentially leveled because of the Internet.

People are able to take their future into their own hands. You would not be here if you were not looking to do the same thing.

The first key is understanding, and the second is taking action. You are well on your way. Five years ago many of us were in the position you might be now.

- Struggling, broke and/or underpaid.
- Disillusioned, disenchanting with the better of times.
- Hungry for more.
- Ready for a change.

This is a **GREAT** spot to be in. It means not only do we have something in common, but we share the desire to **DO SOMETHING** about it.

The only difference between you and us, is Time and Education. The opportunity is the same. I think it is time you knew a little more about us...

[What Is CarbonCopyPRO?]

CarbonCopyPRO is the world's premiere marketing and education company for online entrepreneurs. We have members in over 170 countries and 50 languages.

Collectively, CarbonCopyPRO members have made TENS of MILLIONS of dollars over the last four years. This has been accomplished by leveraging the power of a successful system, a millionaire mind set, and teamwork through our entrepreneurial community.

Imagine having Donald Trump teaching you how to leverage real estate, or Michael Jordan teaching you how to shoot a basketball. How much faster would you improve versus learning it through trial and error?

In 2007, a Texas based direct sales company selling financial education products began using CarbonCopyPRO to sell more products online. This company had pretty much flat-lined in its growth before then. After they began recommending the marketing education of CarbonCopyPRO, their sales went up 400% almost overnight.

The Internet is STILL GROWING at an exponential rate and the opportunities are endless! There are over 1.5 BILLION daily Internet users. What if YOU could get a piece of the action?

You don't want to create your own system, write your own email sales materials, build your own web sites, or learn the best ways to market on your own. To do it right, it takes YEARS to develop and hundreds of thousands of dollars to refine through trial and error.

That is why you are going to leverage our experience. That's why you are going to learn how to **plug into our community and virtually eliminate the learning curves** that keep most people stuck.

It's quite simple really. Take a look at...

[The 10 Ingredients To Our Secret Sauce]

The following are ten of the secrets to my success and the success of our community. All of these have been implemented into CarbonCopyPRO and are waiting for you.

1. MARKETING PLAN:

Marketing is about lead generation and capturing qualified people's attention. This is where most people get it wrong. They use hype, unrealistic promises, and all kinds of other cheesy schemes (like bashing other people) to entice their victims. There are so many offers out there competing for buyer's head space that it's impossible to know who to trust sometimes. The secret is to have a unique offer that is transparent and authentic if you want a competitive edge. CarbonCopyPRO offers something no one else is offering. We offer the system, training, tools and community to EMPOWER our members to create their own reality by taking simple steps daily.

2. TRUST and RELATIONSHIPS:

Building real trust and relationships by showing people how to solve their own problems. What's in it for the customer? Help people solve their problems honestly and you will be amazed at how popular you become! Trust is something that you must earn from your customers and work daily at to maintain, not unlike any other relationship. Trust requires great bravery, to be vulnerable and humble. Trust is the highest form of human respect.

3. VALUE and SERVICE:

Remove all risk with bulletproof satisfaction guarantees and customer support. If all risk has been removed and you are delivering items of extreme value to the end user, people are much more likely to buy what you have to sell and will appreciate your offerings without requesting a refund.

4. BRAND:

YOU Inc... What if we could help you build your OWN personal brand that embodies all of the things you have always dreamed of. You Inc is a powerful brand that we are waiting to help you define and cultivate. Once you have figured out who you are and what you stand for, you will have an increased level of value and your earning potential will go through the roof! Anyone can successfully create a brand of their own if they are willing to do the work. We have taught thousands of people and can certainly teach you too.

5. AUTOMATION and TECHNOLOGY:

Eliminate the bulk of the grunt-work. You want a marketing platform that sifts, sorts, and qualifies your customers automatically and on autopilot, eliminating the tire-kickers before they can waste your time. There are so many forms of technology emerging every year and we are at the cutting edge. The competitive advantage of having access to the latest technologies is unparalleled and the learning curves that we eliminate along the way by testing them first for you are invaluable.

6. REMOVE SALES TRAP:

Most people suck at sales. They know it and so do we. We created our OWN in-house call center staffed with personally trained sales professionals to close the sales for all our members as a solution to this dilemma. Our members' sales conversions almost TRIPLED overnight when we did this! Imagine having an entire sales force working for YOU, closing YOUR sales, making YOU money while you sleep.

7. PASSIVE INCOME POTENTIAL:

Helping others and earning passive income is the foundation and mission that we are built on; Carbon Copy the Pros. We believe that you get what you give. Give people the opportunity to get what THEY want. Make this your focus, and watch your checks grow passively. We will show you how to do this in simple ways that have never occurred to you. You will be able to make an impact within your first week and earn money along the way. Passive income is a beautiful thing!

8. TRAINING and EDUCATION:

Most people are too lazy to learn new things and would rather follow the path of least resistance leaving them stuck. CarbonCopyPRO has perfected a training curriculum and marketing platform that is designed to eliminate most of the variables that people struggle with like selling and explaining. We know how to make money leveraging the power of the Internet (lots and lots of money) and can't wait to teach you how to do the same.

9. TEAMWORK and COMMUNITY:

Teamwork, community, and masterminding with other professional entrepreneurs is what makes this fun and exciting! Look at your income and then look at your circle of influence. What if you could spend time daily with other successful entrepreneurs and learn from them? How would this affect your frame of mind and empower you to create the success you want? (To get a sense of our community, dial into our daily "Wake-Up call" at 10:30 am EST Monday to Thursday +1-507-726-3444 PIN 11267#. You will know within minutes whether you will fit into this community or not!)

10. REAL RESULTS:

People want to see examples of real people already getting results. We have notarized affidavits on hand for everyone of our member testimonials. These are real people having real results because they are dedicated to learning the skill sets and mind sets required for success. What if you could leverage the results that other people in our community are getting to provide third party validation for your OWN success. We will show you how to do this too.

[Can You Do This Too?]

Unsure if you can do this too? Don't worry our average student is 45 years old and knows nothing about the Internet or marketing when they start. We understand that you may not be the most computer literate or technologically savvy person.

However, if you are willing to learn and persist, you can do it too. Read through some of the testimonials in the beginning of this booklet to get a sense of the everyday people we are helping to create their own success. (You can also visit www.CarbonCopyPRO.com/reviews for more success stories.)

While billions of people around the world are living in developing countries with the foot of oppression on their necks, there are millions of people in your country who complain about their situation.

The only thing more pathetic in our opinion is the fact that they don't have to deal with any such obstacles. Yet, these same people, because of their programming, still choose to lie with their faces in the mud!

Maybe you are one of the millions of people out there who are finally fed up with the never-ending hamster wheel of survival.

- Do you have a computer with access to the Internet?
- Are you ready to work smart?
- Are you ready to do something new?

What do you think your chances of success would be with our community, curriculum, and resources, compared to figuring it out yourself?

[Finding Your Passion]

To me, passion is the first ingredient of success. You really cannot be successful at something without being passionate about it at the same time.

I make a lot of money first and foremost because I am passionate about helping others live their best life. This passion has driven me to become a brilliant marketer. As you can see, these two things complement each other, and a whole new world of possibility opens up.

Look at the American footballer Peyton Manning, or anyone who makes a killing at doing what they do. Do you believe Peyton Manning thinks about how much money he makes when he steps on the field each Sunday? NO! He is incredibly passionate about football. The money he makes is a by-product of his passion and focus. What are you passionate about? **PASSION IS TO YOUR SUCCESS WHAT AUTHENTICITY IS TO INTEGRITY.**

There is more money to be made than you will ever know what to do with, if you are simply able to follow your passion and help as many people get what they want as possible at the same time.

That is what our community is all about. Together, with the right mission, we can all do a LOT more than any of us could do on our own.

Go to CarbonCopyPRO.com to get started today!

DISCLAIMER: CarbonCopyPRO (PRO) is an education company and marketing platform, not an income opportunity. Some of our customers are also affiliates and earn commissions by referring other people to our products and services. [Getting Started With CarbonCopyPRO]

Collectively, our members have made TENS of MILLIONS of dollars marketing products and services online over the last four years. Their success has come through leveraging the power of our entrepreneurial community, systems, training, and resources.

No one wants to have to create their own system, write their own email sales letters, build their own websites, and learn the best ways to market online. To do it right, it takes YEARS to develop and potentially thousands of dollars to refine through trial and error.

Our initial focus was to create a system that we could use to maximize our personal sales and income. Now our vision is much broader. Our focus is no longer just on our results. It's on helping others "carbon copy" our success.

Regardless of your budget, you can get started in a way that is right for YOU. Remember, the world belongs to those who are still willing to get their hands dirty.

Come, let's do this together.
